| Features:       | 1. Looks and feels like natural wood  
                  2. 100% non-toxic, non-formaldehyde, environmental friendly  
                  3. Water-proof; termite-proof  
                  4. No cracking, anti-impact with high density  
                  5. Anti-UV, good color fastness  
                  6. No glue, no need to paint and can be painted  
                  7. Easy installation and low maintenance  
                  8. Weather resistant |
Product features and advantages

Lead the industry quality standard, build the city green sign.

- **Weathering—resistant:** No change in characteristics after exposure to sunlight, rain and temperature changes.
- **Insect—resistant:** The special structure of wood powder and PVC keeps the termite away.
- **Flame—retardant:** With PVC material inside. Lesco wood products are flame retardant if there is no naked fire.
- **Environment—friendly:** Wood power takes up 70%. The amount of formaldehyde and benzene released from Lesco wood products is far below the national and European standards which will do no harm to human body.
- **Water—proof:** Low water absorption rate suitable for wet environment.
- **Recyclable:** The products could be recycled and used again.
Application characteristics

1. The product has a natural woody texture and a high-grade wooden texture.
2. The product can be shaped, plastic, and can be personalized with the design.
3. High mechanical.
4. No cracks, no expansion, no deformation.
5. No need for repairs and maintenance, easy to clean.
6. The service life can reach 30 years.
7. No pollution.
8. Production and installation speed is fast, and construction efficiency is improved.
